

# BAY FLORA

## BOTANICA FOR FUNDRAISING

Welcome to Bay Flora, home of ornamental and unusual edible plants and seed kits, herbal wreaths, botanical posters and more.

When members of your organization buy any of the wonderful items on our website, they can direct ten to fifteen percent of their purchase price toward your group. It's a great way for non-profits, from PTAs to environmental groups, to fundraise. And everyone will love the products, from organic Tuscan olive trees to kids' gardening tools.

Best of all, no work is required! We do it all for you. When our customers place their orders, they enter the name of the group they want to support. And they'll be thrilled with the citrus and elderberry selections, as well as the seed kits in charming metal boxes that make marvelous gifts.

For more information, please visit our website at <http://www.bayflora.com>.
